

Moorea

Moorea which has often been linked to James Michener's mythical island of Bali Hai, is only 17 km (12 miles) from the main island of Tahiti. The volcanic peaks, reflected in the tranquil waters of Cook's Bay and Opunohu Bay, rise like a shark's jaw from the island's basaltic base and white sand beaches bordering crystalline lagoons. A relaxed, barefoot existence prevails - there is a real ambiance here, from the warmth of the air scented heavily with tropical flowers to the fiery romantic sunsets that signal the end of another fabulous Tahitian day.
